**HARRISON COUNTY LAUNCHES ITS  
'REACH A VOTER' TOOL!**

Harrison County, MS – Today the Harrison County Circuit Clerk's Office announced a new program that will help in providing clear communication between the county and its residents. The new mobile program is in the form of a 'Reach a Voter' texting tool.

Residents can conveniently text VOTE2018 to 70000 to get important news, updates, and other pertinent voting information from the Harrison County Circuit Clerk's Office. Once subscribed, voting information concerning upcoming elections will be sent to all residents interested via text alerts.

Brad McMullan, CEO of an award winning Mississippi based mobile app and Texting Company, called this new initiative a huge asset for residents of Harrison County. "The Circuit Clerk's Office wants residents to know what's going on. They also want them to have a more convenient way to receive election communication". McMullan said.

One of the priorities of the Circuit Clerk's Office from the very beginning has been to work to increase voter registration and voter participation. Now they are expanding their efforts by going digital with mobile texting.

You can get the FREE service now by texting VOTE2018 to 70000.
